CEIP is a unique program that enables undergraduate students to maintain student status while working full-time (32 or more hours per week) in a supervised career-related experience throughout a full academic term, earning zero credit hours. The student’s academic department approves the timing/nature of the experience.

- **CEIP FULL-TIME PROGRAM enrollment does not include all students who work during college.**
  - For example, many students who do a summer-only, one-term internship choose not to enroll in CEIP.
  - CEIP does not include positions with work hours less than 32 per week.

- **Enrollment numbers** students at work, enrolled in CEP 4084, shown on their transcript, during the work term.

- Students in any undergraduate major may enroll, if permitted by their academic department.
  - Because of the unique nature of CEIP, engineering majors have accounted for 73%-96% of CEIP enrollment.
  - Percentages of undergrads enrolled based on fall enrollment published by Institutional Research at https://www.ir.vt.edu/data/student/enrollments.html.

### Enrollment Numbers by College and Major
