

This timeline represents the two years leading up to matriculation into a health professional school. Please note that this is intended to be used as a general guideline in conjunction with regular meetings with both your academic advisor, as well as a Health Professions advisor. Not every aspect of the application process is noted in this description. The timeline may vary depending upon your health profession of choice as well as your own timeline. To review your specific needs, please make an appointment with a health professions advisor.

Meet with an HPA advisor to review your questionnaire and evaluate your competitiveness

Attend HPA 202

Register for your standardized test and formulate a study plan

Fall prior to application

Attend the Fall Medical School Admissions Advantage (MSAA) or Health Care Admissions Advantage (HCAA)
